

Health Care for All Colorado Questionnaire for Candidates for US House and US Senate

1. A single-payer universal health care system would cover everyone through a publicly funded and administered system delivered by private providers. This system would have one risk pool and would reduce costs for individuals, families, businesses, and the government. A single-payer system would cover everyone at no greater cost than our current system (Physicians for a National Health Program, PNHP)

Would you support a publicly funded and administered, single-payer, private provider, universal health care system?

YES **NO**

Comments: _____

2. The Veterans Administration negotiates drug prices with the drug companies and obtains much lower prices for its patients.

Would you advocate for legislation that requires Medicare to negotiate drug prices with the pharmaceutical industry?

YES **NO**

Comments: _____

**3. I will advocate for single-payer health care reform when I address issues such as:
(Please check those that you believe are affected by the health care crisis.)**

- poverty**
- inequality and disparities**
- bankruptcy**
- public health concerns**
- national, state and local budgets**
- rising populations and costs of prisons**
- educational improvement**
- businesses' competitive viability**
- sustainability of Medicare**
- other:**
